

TOMATO

INTERNATIONAL MARKETS 2023

QUALITY AND TASTE

For 70 years, our objective is to create varietal innovations to improve vegetable productions, meet the retailing demands and offer always more diversity and taste.

In tomatoes, in a context threatened by the emergence of diseases and pests, our research teams are doing everything to create resistant varieties, especially to face ToBRFV. Moreover, all our tomato varieties destined for the professional market are GSPP certified to provide you with maximum security for your crops.

Gautier Semences has asserted its position as a major actor, especially on segments such as cherries, cocktails and specialties, thanks to varieties with agronomic and exceptional taste qualities.

Taste is a major concern of our breeding programs and we work tirelessly to offer you an increasingly wider range of varieties worthy of your expectations.

The standard abbreviations :

ToMV: Tomato mosaic virus	Va: Verticillium albo-atrum
TSWV: Tomato spotted wilt virus	Vd: Verticillium dahliae
TYLCV: Tomato yellow leaf curl virus	PI: Pyrenochaeta lycopersici
Pf: Passalora fulva (ex Fulvia fulva)	Ma: Meloidogyne arenaria
Fol: Fusarium oxysporum f.sp. lycopersici	Mi: Meloidogyne incognita
For: Fusarium oxysporum f.sp. radicis-lycopersici	Mj: Meloidogyne javanica
On: Oidium neolycopersici (ex Oidium lycopersicum)	HR: High/standard resistance
	IR: Intermediate/moderate resistance

The advice and suggestions, as well as the information mentioned above, are provided for guidance only and can not therefore provide a guarantee of results.
All varieties illustrated in this paper were photographed under favourable conditions; their behaviour can vary depending on culture conditions.

+ ORGANIC

For some of our varieties, organic seeds are also available. You can easily identify them with the ORGANIC label.

LICENSED VARIETY

Variety under sales conditions.

If you wish to obtain more information on our product range, feel free to contact your Gautier Semences Sales representative.

SEED QUALITY CONTROL

Good Seed and Plant Practices (GSPP) is an international, transparent business chain system whose purpose is to prevent tomato seed and plant lots from being infected by *Clavibacter michiganensis* subsp. *michiganensis* (Cmm). Gautier Semences has been accredited since July 2011. This accreditation covers the entire process of design and production of varieties. This accreditation demonstrates the commitment of all teams in Gautier to deliver the highest level of quality on the market.

ROUND

LICENSED VARIETY

SAPOLO HF1

Fall for its crunchy fruits and sweet taste

HR ToMV:0-2/Va:0/Vd:0/Fol:0-1-2/Pf:A-E **IR** Ma/Mi/Mj

Shiny red cherry for truss harvest of 12 to 14 fruits.
Great fruit colour and vine presentation.
Excellent taste balanced between sweetness and acidity.
Average weight of 13-15 grams.
Open and balanced plant.
For heated crop production hydroponic and organic.

LICENSED VARIETY

SORENTYNO HF1

Enjoy its flavor and sweetness

HR ToMV:0-2/Va:0/Vd:0/Fol:0-1-2/Pf:A-E

IR Ma/Mi/Mj/TYLCV

Red and shiny cherry for cluster harvest of 12 to 14 fruits.
Good coloration and conservation of fruits.
Excellent taste with high sweetness and brix.
Average weight 13-15g grams.
Strong and balance plant.

RIVOLO HF1

Excellent aromatic profile

HR ToMV:0-2/Pf:A-E **IR** Ma/Mi/Mj

Red cherry with strong presentation on the vine.
Very good aromatic profile.
Average weight 10-12g grams.
Vigorous and vegetative plant with short internodes.
Suitable mainly for hydroponic and heated productions.

LICENSED VARIETY

TASTYNO HF1

Flavors that will delight your taste buds

HR ToMV:0-2/Pf:A-E **IR** Ma/Mi/Mj/TYLCV

Cherry tomato for loose harvest, combining taste quality, productivity and resistance to TYLCV.
Vigorous plant with ramified clusters. Very productive.
Round fruit, bright red, with excellent flavour.
Average weight: 12-15 grams. Excellent shelf-life.
For non-heated or heated protected crop production, in soil or hydroponic.

+ ORGANIC

C620* HF1

Never compromise performance and taste

HR ToMV:0-2/Fol:0/Pf:A-E

IR Ma/Mi/Mj/TYLCV

Round cherry tomato for cluster harvest. Great coloration and excellent shelflife. Average weight of 14-18g. High yield potential. Suitable for both soil and soilless productions.

GAUTIER
seeds

STARLOR HF1

The rising star with exquisite taste

HR ToMV:0-2/Va:0/Vd:0/Fol:0/Pf:A-E

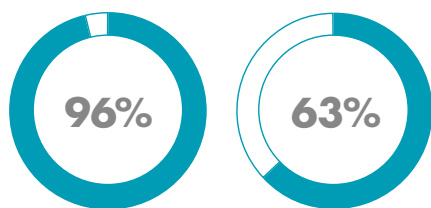

IR Ma/Mi/Mj

Cherry on the vine with a very attractive yellow colour and a great taste.
Rich flavours, high brix level and crunchy texture.
Average weight of 12-14 grams.
Excellent cracking tolerance.
Variety adapted to high-tech greenhouses.
