OUTDOOR LETTUCE

Double defense, zero compromise

OUTDOOR LETTUCE 2025-2026

Easily identify varieties that combines
Bremia Bl:29-41EU and Fusarium Fol:1
and/or Fol:4 resistances thanks to
the two pictograms mentioned above:
INNOVATION BREMIA and FUZ CONTROL®

A range consistently aligned with on-the-ground challenges

With downy mildew pressure remaining high this season, we are maintaining enhanced field monitoring to offer resistant varieties tailored to the needs of each growing region.

As a lettuce specialist, we are proud to offer, right from the start of the campaign, 14 varieties combining dual resistance to *Bremia Bl:29-41EU* and *Fusarium Fol:1* and/or *Fol:4*, the result of the ongoing commitment of our Research, Breeding, and Development teams.

You can find in this brochure our complete range of lettuce for all type of needs.

Our new products for this season:

- PROMETEO C3112, our new butterhead for hot conditions
- JAKADY C3017 and TCHOUPY C3124, our two new varieties suitable for food processing market
- PASTINICE, the oakleaf ideal for the heart of the season

Gautier Semences is also committed to organic farming producers by offering a wide and quality range, with 22 varieties available in organic seeds.

Once again this year, we renew our commitment as your trusted partner dedicated to the success of your crops.
