# RADISH

## Our job, our commitments to serving the vegetable farming chain

### **Know-how & quality: producing seeds according to the best practices**

Breeder and seed producer, Gautier Semences markets high quality, healthy and safe seeds for high-performance vegetable farming crops.

### **The pleasure of taste: the added value of Gautier Semences**

Improving taste has always been a major concern in our varietal breeding. Now, the identification of genetic factors of flavours, aromas and textures enables us to select promising varieties faster to offer you ever more tasty vegetables, adapted to all the consumer trends.

### **Research and varietal creation: the future of the chain**

Because we are attentive to the sectors evolution and close to our customers, our Research team participate in numerous national and international projects and conduct ambitious breeding programmes.

**A single priority** guides our choices: responding to the challenges of the vegetable farming chain for efficient crops, today and tomorrow.

# ROUND

## CIRCUS HF1

### An attractive presentation

- Red round root with a thin taproot
- Cracking tolerance
- Dark green and upright foliage, providing an easy pick up
- Short crop cycle
- Especially recommended for bunching and processing
- Spring and summer harvests, for indoor or open field crops
- Suitable for mechanical harvest

## BACCHUS HF1

### The purple radish crunchy and tasty

- Bright purple round root with a nice white flesh
- Crunchy and tasty
- Thin taproot
- Upright foliage and good leaf attach, easy to pick up
- Short crop cycle
- Spring and summer harvests, for indoor or open field crops

## ANGELUS

### A pure white colour and tolerant to downy mildew

- Pure white skin on the whole root
- Very uniform and round bulb
- Cracking tolerance
- Upright foliage, good leaf attach
- Short crop cycle
- Intermediate resistance to downy mildew
- Spring, summer and autumn harvest, for outdoor cultivation, indoor possible

## HORUS

### A bright colour and a sweet taste

- Attractive and homogeneous yellow skin colour
- White flesh
- Quality root, very round and smooth
- Short crop cycle
- Cracking and splitting tolerance
- Spring, summer and autumn harvest, for outdoor cultivation, indoor possible
- For an optimum colour gentle cleaning is recommended

Variety	Colour	Vegetative cycle	Foliage	Cultivation period	Cultivation mode
<b>ROUND</b>					
CIRCUS - HYBRIDE	Red	●	Medium	Spring / summer / autumn	Indoor / Outdoor
BACCHUS - HYBRIDE	Purple	●	Medium	Spring / summer / autumn	Indoor / Outdoor
ANGELUS	White	●	Medium	Spring / summer / autumn	Outdoor / Indoor possible
HORUS	Yellow	●	Medium	Spring / summer / autumn	Outdoor / Indoor possible

# FRENCH BREAKFAST

## NELSON

### Good presentation and versatility

- Half-long radish with a very small white tip
- Very attractive well shaped cylindrical root of a bright red colour
- Cracking tolerance
- Short and upright leaves with a very good attach
- Easy bunching and adapted to mechanical harvest
- Versatile variety, for protected crops
- May be suitable for open field crops

## DIABLUS HF1

### Brightness and post-harvest shelf-life

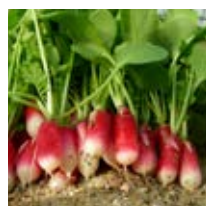

- Shiny, well-budded root
- Cylindrical root with splitting tolerance
- Perfectly suited for mechanical harvest, easy bunching
- Brightness and good post-harvest behaviour
- Very good performance in low warmed soil
- Protected crops in spring and early autumn, open field in summer
- Improved resistance to downy mildew on leaves and roots (IR)

## MIRABEAU HF1

### Fast cycle and very sweet flesh

- Vigorous, short cycle variety
- Very sweet and firm flesh
- Attractive bright red colour
- Splitting tolerance
- Protected crops in spring and autumn, open field in summer
- Strong foliage with a good attach

## ARTUS HF1

### Ideal for cold periods

- Splitting tolerance
- Strong foliage with a good attach for mechanical harvest
- Short cycle
- For protected crops in growing days
- Good growth in cold periods
- Enhanced resistance to downy mildew on foliage (IR)

Variety	Colour	White proportion	Vegetative cycle	Foliage	Cultivation period	Cultivation mode
<b>FRENCH BREAKFAST</b>						
NELSON	Red	1/8-1/10	●	Short	Spring / summer / autumn	Indoor / Outdoor
DIABLUS - HYBRIDE	Red	1/3-1/4	●	Quite short	Spring / autumn	Indoor / Outdoor
MIRABEAU - HYBRIDE	Red	1/4-1/5	●	Medium	Spring / summer / autumn	Indoor / Outdoor
ARTUS - HYBRIDE	Red	1/4-1/5	●	Quite short	Winter	Indoor / Outdoor possible

EARLINESS : ● very early ● late

## Offering the finest of nature: Gautier's vision for the future

Environmental and social issues have a direct effect on food chains and agricultural practices. We must constantly reinvent ourselves to feed the world alongside farmers, while meeting consumers' ever-growing expectations.

Through a rigorous approach, Gautier provide innovative solutions to sustainable agriculture's challenges and support farmers with healthy, safe and efficient seeds every day. Thanks to our imaginative abilities, we are proud to contribute, daily, to the renewal of vegetable farming varieties, with the ambition of offering everyone the finest of nature: health, pleasure and responsibility.
